

YU Tingyang (Yist)

✉ tyyistyu@link.cuhk.edu.hk | ☎ +852 5132 0299 | ⚙️ <https://yistyu.github.io/>

EDUCATION

École Polytechnique Fédérale de Lausanne (EPFL)

Ph.D. in Communication and Computer Sciences (EDIC)

Sep. 2023 – Sep. 2027 (expected)

Lausanne, Switzerland

- EDIC Computer Science Fellowship Recipient.

The Chinese University of Hong Kong (CUHK)

Bachelor of Science in Mathematics and Information Engineering (MIEG)

Sep. 2019 – Sep. 2023

Hong Kong SAR, China

- **Winter semester exchange program in Faculty of Applied Science & Engineering, University of Toronto (UoT), 2021-22.**
- Ranked **top 0.4% among 163,000 science students** in the National College Entrance Exam.

RESEARCH EXPERIENCE

Subgraph Augmentation for Graph Neural Networks

Final year project supervised by Professor Irwin King (CUHK)

Sep. 2022 – Present

Hong Kong SAR, China

- Conducted thorough experiments which showed that this strategy outperformed state-of-the-art sampling strategies published at ICLR 2022 on graph classification by 3% on TU datasets. It further reduced the space complexity up to 55% on dataset IMDB-MULTI and 10-20% training time on dataset NCI1 compared to the second best strategy.

Projection Robust Unbalanced Optimal Transport

Research Assistant to Professor Ma Shiqian (University of California, Davis)

Feb. 2022 – Present

California, USA

- Presented a new model called projection robust unbalanced optimal transport (PRUOT) to alleviate the curse of dimensionality for computing the Wasserstein distance between unbalanced distributions.
- Illustrated a Riemannian optimization algorithm RGAS-UOT for solving this new model and proved its non-trivial finite-time convergence guarantee to obtain the stationary point. Numerical experiments were given to demonstrate the advantages of the PRUOT model in high-dimensional cases. **The work was presented in Preprint [4]**

Single-cell Multi-omics Integration with Random Walk and Graph Neural Network

Research Assistant to Professor Li Yu (CUHK)

April, 2021 – Present

Hong Kong SAR, China

- Presented *scMinerva*, an unsupervised Graph Convolutional Network framework for single-cell multi-omics integration, which featured a novel algorithm *omics2vec* that enabled random walk algorithm for heterogeneous graphs.
- *scMinerva* achieved superior classification performance among 7 state-of-the-art methods on 6 real-world datasets and improved classification accuracy up to 20% on dataset GSE128639 when classifying to 27 classes.
- Won the Best Project Award for Summer Research Internship of CUHK, 2020-21 (**Top 10% out of 46 projects**).

Zyablov Bound on General Adversarial Various Channels

Research Assistant to Professor Sidharth Jaggi (CUHK)

June, 2020 – Sep. 2020

Hong Kong SAR, China

- Worked on extending Zyablov Bound which is based on concatenated code to the general adversarial various channels.
- Revisited the basic assumptions for classic Zyablov Bound from coding theory and information theory and examined them from classic channels to general adversarial various channels, which are more practical in real-life transmissions.

ACADEMIC AWARDS AND SCHOLARSHIPS

EDIC Computer Science Fellowship;

EPFL

Academic Excellence Scholarship for Non-local Students (30,000 HKD), 2022-23;

Faculty of Science

Professor Charles K. Kao Exchange Scholarship (50,000 HKD), 2021-22;

The Charles K. Kao Foundation

Dean's List (Top 10%) of 2019-20, 2020-21;

University

ELITE Stream Scholarship (20,000 HKD) of 2019-20, 2020-21;

ELITE Stream

IE Award for Academic Exchange (30,000 HKD), 2021-22;

Dept. of Information Engineering

Best Project Award for Summer Research Internship of CUHK, 2020-21;

Faculty of Engineering

Second Prize of Hua Xia Cup Mathematical Olympiad, 2018-19;

Asia Maths Alliance

Second Prize in National Physics Competition for Senior High, 2018-19;

National Physics Competition Committee

Second Prize in National Mathematics Competition for Senior High, 2018-19.

Chinese Mathematics Society

PUBLICATIONS AND PREPRINTS

1. **scMinerva: an Unsupervised Graph Learning Framework with Label-efficient Fine-tuning for Single-cell Multi-omics Integrative Analysis** [\[paper\]](#)
Tingyang Yu, Yongshuo Zong, Yixuan Wang, Xuesong Wang, Yu Li.
bioRxiv Preprint 2021 (Under review at Advanced Science (IF = 17.5))
2. **Contrastive Cycle Adversarial Autoencoders for Single-cell Multiomics Alignment and Integration** [\[paper\]](#)
Xuesong Wang, Zhihang Hu, [Tingyang YU](#), Ruijie Wang, Yumeng Wei, Juan Shu, Jianzhu Ma, Yu Li
Bioinformatics (IF: 6.93)
3. **conST: an interpretable multi-modal contrastive learning framework for spatial transcriptomics** [\[paper\]](#)
Yongshuo Zong, [Tingyang YU](#), Xuesong Wang, Yixuan Wang, Zhihang Hu, Yu Li
bioRxiv Preprint 2021 (Major revision at Nucleic Acids Research (IF: 16.97))
4. **Projection Robust Optimal Transport Between Unbalanced Distributions** [\[paper\]](#)
[Tingyang Yu*](#), [Yuxuan Wan*](#), Shiqian Ma. *Preprint 2022*

LEADERSHIP EXPERIENCE

Mandarin Debate Team of CUHK

Sep. 2019 – May, 2021

Captain and Team Member

Hong Kong SAR, China

- Prepared over 9 hours of weekly debate training material for 120+ team members and handled logistics for team registration and participation in 10+ international competitions.
- Launched the team PR group to advertise the competition results and liaise with other parties for collaborations. Fund-raised over 30,000 CNY from corporate sponsors for international competition trips and debate visits.

Exemplar Tournament Freshman Mandarin Debate Competition

Mar. 2021 – May, 2021

Founder and Contributor

Hong Kong SAR, China

- Founded the "Exemplar Tournament" Freshman Mandarin Debate Competition as the first international Mandarin debate competition initiated by CUHK. The competition received more than 14,000 HKD as funding from CUHK.
- Drafted the Tournament Regulations, resolved multiple emergencies during the 2-month competition period, and organized team registration for more than 50 universities and debate clubs all over the world.

COMMUNITY CONTRIBUTIONS

Project Nous

May 2023 - Present

Seminar leader

Harbin, China

- Bring liberal arts education and seminar-style learning to students from Harbin, China. Develop a 30-hour seminar series with ten sessions titled as *From the view of gender study, how to build a more diverse society*.
- Guide high school students through gender study and civic engagement activities. Encourage discussion in class to think critically and forge connections between the self and the community.

Hong Kong Dog Rescue

Jan. 2023 - Mar. 2023

Part-time Volunteer

Hong Kong SAR, China

- Clean the dog kennels, attend to dogs with health issues, invigorate and promote socialization among the 600 dogs of the Tai Po Homing Center.
- Help to facilitate Homing Center visits and advertise the work of HKDR with the objective of enhancing the understanding of dogs in Hong Kong and reducing the instances of pet abandonment.

“WOMEN US” Girl Empowerment Project

Feb. 2021 – Present

Founder and Contributor

Mainland, China

- Initiated the “WOMEN US” Girl Empowerment project, a mainland China based non-profit self-empowerment project for female high school students that provides reading material on the power of women to broaden their horizons.
- Collaborated with Fudan University’s iGEM team to introduce their projects to the students of No.1 Middle School in Qinghai Province to introduce the story of female scientists and germinate youth interest in STEM.
- Developed a WeChat mini-program to connect high-school students with undergraduates from diverse disciplines.

SANGCHU Marmots Youth Hostel

June, 2021 – July, 2021

Full-time Volunteer

Gannan Tibetan Autonomous Prefecture

- Worked on the daily affairs of the hostel, including cleaning, cooking, and social media advertisements.
- Participated in marmot protection activities, infectious diseases management and population control. Provided local and social culture immersion tours for international tourists.

EXTRA-CURRICULUM AWARDS

2020 HANGZHOU Mandarin Debate Grand Prix (256 teams) <i>“Best Debater Award Among All the Teams” in Hong Kong area.</i>	Jan. 2020 - Mar. 2020 Virtual
The 1st FENGYE Cup Mandarin Debate Competition (32 teams) <i>Champion; “Best Debater Award for the Competition”.</i>	Mar. 2020 - May, 2020 Virtual
The Thirteenth XINWEI-HUAXIA Mandarin Debate World Cup (48 teams) <i>“Best Debater Award for the Competition”.</i>	Sep. 2020 The University of New South Wales

SKILLS & MISC.

- *Language* English (IELTS overall 7.5, Speaking 7.5), Mandarin (native), Cantonese (fluent).
- *Programming* Matlab, Java, C, R, Python {Pytorch, Tensorflow, NetworkX, Pandas, Numpy, sklearn}.
- *Tools* L^AT_EX, Linux, Anaconda, Git, MongoDB, Docker, WanDB, Abode Illustrator.
- *Hobbies* Writing, songwriting, swimming, running, bodybuilding, *etc.*
